

### “L” bracket security mounts

Loll “L” bracket security mounts are an integrated permanent mounting option. This add-on system includes pre-drilling of insert holes as well as the actual hardware. It may be used on all HD (Heavy Duty) Collection products and the Alfresco Collection.

*Note: not all Loll products are compatible with L brackets. View Loll's complete HD line at [www.loltrade.com](http://www.loltrade.com) or connect with a Loll representative for clarification.*

### cable mount system

Loll can work with you to provide holes in legs or some of our products to attach a security cable. This is a great option for light-duty securing of furniture, especially when you want to be able to have some movement of the piece.

*Note: Loll does not provide actual cable. We recommend nylon or vinyl coated “aircraft” cable in a 1/4” diameter. This material is available at most hardware stores.*
