PRODUCT CARE
To avoid damaging furniture perform the assembly of your Loll furniture on a clean, soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems soft surface you may want to cover with protective film on it. This surface is hidden after assembly so the film can remain on the block or beneath the quality of our fine furniture and will make things right if you are not completely satisfied with your purchase. Loll Designs hereby guarantees that the piece will be of good.
