**ASSEMBLY TIPS**

Before beginning assembly, verify that all of your furniture is on a clean surface like a bare concrete, gravel or the! Surface is flat. The furniture pieces aren’t sitting together but have been assembled individually. Slowly and carefully slide each piece together. If the furniture doesn’t fit, you may have something mixed up. Slowly go back through the instructions to ensure you are aligning the proper components. If your piece parts aren’t fitting together you likely have something wrong and you should reread the instructions to ensure you are aligning the proper components.

*Note: Each piece is designed to interlock with the other. Your furniture will not be damaged during shipping. If damage has occurred please take digital pictures of the damaged sections.*
