### Product Care

Loll Designs inspire people to appreciate the outdoors.

#### Assembly Instructions & Product Info:

**ASSEMBLY TIPS**

- **Please read before beginning assembly!**

- To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture should come in. If the furniture is placed on a hard surface it may damage the surface or damage the furniture itself. We recommend you place the furniture on a soft surface and assemble it in the area of your choice. As you assemble your furniture you may need to re-read the instructions to ensure you are aligning the proper components.

- The back braces are not included in inserts as you can easily overtighten and damage the product. All bolts come with lock block inserts that allow removal and reuse of the bolt. Start all bolts by hand, with the Allen wrench provided in the kit. You can use an Allen wrench or your hands to tighten the bolts. If you are having trouble using your hands to tighten the bolt you can use a tool to tighten it. You can use a tool to tighten the bolt if you cannot muscle the bolt any tighter. It’s virtually impossible to overtighten by hand. Watch the assembly videos at www.lolldesigns.com/videos for even more tips and videos.

- **Please Recycle the BOX and paper packaging.** The green plastic stretch wrap we use is compostable.

- **CORRECTINCORRECT**

- **Tool Included**

- **WARRANTY**

- **5YR WARRANTY**

- **Loll Designs strives to build long-term relationships based on confidence and trust with our customers. We sit beside, on top, and beneath the quality of our fine furniture and will make things right if you are not completely satisfied with your purchase. Loll Designs hereby guarantees that the piece will be of good quality and workmanship, free from faults and defects. Loll warrants that all components will not fail, under normal use, for five years from the year mark on the piece or the date of purchase.**

- **Assemble furniture within 3 months from date of purchase.**

- We recommend you store your Loll furniture in a dry environment. If the storage area is exposed to the weather please ensure your Loll furniture is fully assembled and fits the storage environment orropply pack it with a breathable material. Store your Loll furniture in a dry environment or if placed in the weather it should be tightly secured with a breathable material. ASSEMBLY INSTRUCTIONS

1. ATTACH BASE SIDES

*Please read Assembly Tips before beginning assembly.

Fit the Back Brace long edge into the Backs groove track cut out so that the center cut outs on the Back Brace and the Back align. Fit Back & Back Brace ends into the Left Base Sides pocket cut outs. Place Block G into the Back Brace cutout, insert Bolt through Block G into the Base Side and finger tighten.

2. ATTACH SEAT BRACE

Repeat step 1 to attach Right Base Side.

Fit Seat Brace with cutout in the middle of the Back’s lower support. Place a Block G into the Seat Brace’s cutout. Insert a Bolt through Block G into lower support and finger tighten.

3. ATTACH FACE PLATE

Align Face Plate cutouts with ends of corresponding Base Sides and Seat Support. Place Block G’s into Base Side and Seat Support cutouts. Insert Bolts through the Block G’s and finger tighten.

4. ATTACH SEAT SLATS

A. Fit groove track cut outs of front Seat Slat with assembled chair base frame. Place Block G’s in Base Side’s, insert bolts, and finger tighten.

B. Repeat step A. for rear Seat Slat.

C. Repeat step A. for middle Seat Slats.

5. ATTACH LEGS

A. Align holes and cut out of the right Leg with the Base Side’s holes and Face Plate End. Insert bolts through the Base Side into the right Leg and finger tighten.

B. Repeat step G. for opposite side Leg.

6. ATTACH ARMS

Place Bottle Opener (protective film side out) into the Right Arm’s cut out then remove film, place the Arms on top of the Legs and middle support of the Back. Align Leg and support holes with corresponding Arm holes. Insert bolts into the Arms and finger tighten.

*Using provided wrench securely tighten all bolts.

* It is very important that you finger tighten all bolts into inserts to ensure that you do not cross-thread bolts and inserts before tightening. It will also be easier if you wait to tighten bolts until you have all bolts installed and the piece completely assembled. This will allow for more movement of individual pieces and help in aligning holes with inserts. Use the Allen Tool provided to finish tighten bolt until snug.
