Loll Tool

BLOCK & BOLT INSTALLATION

Insert bolts through countersunk hole side of blocks as shown below.

Countersunk Hole

ASSEMBLY TIPS

*Please read before beginning assembly!
To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems parts aren't fitting together you likely have something wrong and you should reread the instructions to ensure you are aligning the proper components.

If your piece of furniture requires “Blocks” for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one and know how to use it. Set the clutch setting at medium torque. We do not recommend using an electric drill with a cord and without a clutch to install bolts in inserts as you can easily overtighten and damage the product. All bolts come standard with a thread coating to reduce bolts loosening after assembly while you can’t muscle the bolt any tighter. It’s virtually impossible to overtighten by hand. Watch the assembly videos at www.lolldesigns.com/videos for even more information and visual aids.

If you have more questions please contact your Loll can also be purchased from Loll for multi piece assembly jobs.

DAMAGED PRODUCT

Sometimes accidents occur. Please inspect your Loll furniture when you receive it to make sure that it has not been damaged during shipping. If damage has occurred please take digital pictures of the damaged product and send them to sales@lolldesigns.com. If there is no damage to the packaging do not return it to the dealer. Anything that comes in contact with the product during shipping may cause damage.

Contact us to learn more about the replacement/return process.

If you have any questions about the product or the documentation, please do not hesitate to contact us at sales@lolldesigns.com.
**ASSEMBLY INSTRUCTIONS**

1. **ATTACH ENDS**

   *Please read Assembly Tips before beginning assembly.*

   Fit End into the Side's groove track cut out. Place Blocks G into the Ends pocket cut outs, insert bolts through the blocks into the Side's threaded holes, and finger tighten. Repeat for opposite End.

   **ATTACH CENTER SEAT SLAT**

   Fit center Seat Slat (B) groove track cut outs over Ends, Small Ribs, and Large Rib(s) and align to center of bench. Place Blocks G into the Rib's and End's pocket cut outs, insert bolts through the blocks into the Seat Slat's threaded holes, and finger tighten.

   **ATTACH OUTER SEAT SLATS**

   Fit end Seat Slats (A) groove track cut outs over Ends, Small Ribs, and Large Rib(s). Place Blocks G into the Rib's and End's pocket cut outs, insert bolts through the blocks into the Seat Slat's threaded holes, and finger tighten.

   *Using provided wrench securely tighten all bolts.*

2. **ATTACH RIBS**

   A. Fit short edge of the Small Ribs into the Side's outer pocket cut outs with the Ribs pocket cut out facing the threaded hole in the Side. Place Blocks G into the Rib's pocket cut outs, insert bolts through the blocks into the Side's threaded holes, and finger tighten.

   B. Fit short edge of the Large Ribs into the Side's center pocket cut outs with the Ribs pocket cut out facing the threaded hole in the Side (for 47˝ an additional hole is provided making Rib direction universal). Place Blocks G into the Rib's pocket cut outs, insert bolts through the blocks into the Side's threaded holes, and finger tighten. (2 Large Ribs for 58˝ Bench.)

   "It is very important that you finger tighten all bolts into inserts to ensure that you do not cross-thread bolts and inserts before tightening. It will also be easier if you wait to tighten bolts until you have all bolts installed and the piece completely assembled. This will allow for more movement of individual pieces and help in aligning holes with inserts. Use the Allen Tool provided to finish tighten bolt until snug."
