Product Care

Your new Loll furniture is a no maintenance product. You'll never need to paint or stain it and it can be left outside all year regardless of the season. It will not rot, even if left standing in water. Nonetheless, we sit beside, on top, and beneath the quality of our fine furniture and will make things right if you are not completely satisfied with your purchase. Loll Designs hereby guarantees that the piece will be of good quality and workmanship, free from faults and defects. Loll warrants that all components will not fail, under normal use, for five years from the year mark on the piece or the date of purchase. *For commercial orders the warranty is three years.

*Please read before beginning assembly!

To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture came in. If your piece of furniture requires “Blocks” for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one and know how to use it. Set the clutch setting at medium torque. We do not recommend using an electric drill with a cord and without a clutch to install bolts in inserts as you can easily overtighten and damage the product. All bolts come standard with a thread coating to reduce bolts loosening after assembly while still allowing removal and reuse of the bolt. Start all bolts by hand, with the Allen key provided in the tool kit. If the nut is tight enough you can’t muscle the bolt any tighter. It’s virtually impossible to overtighten by hand.

We want you to love your Loll. Reach out if you need assistance. Call 877.740.3387. A Sales Associate or Customer Service for support at 877.740.3387.** Please Recycle the BOX and paper packaging. The green plastic stretch wrap is also made from recycled materials and can also be purchased from Loll for multi piece assembly jobs. Loll Designs strives to build long-term relationships based on confidence and trust with our customers.

Loll Designs inspire people to appreciate the outdoors.

**ASSEMBLY INSTRUCTIONS**

1. **ATTACH SEAT**

   *Please read Assembly Tips before beginning assembly.*

   Fit Seat edge into Left Side cut out with the cut outs in the Seat facing the threaded inserts in the Left Side and long cut out toward front of chair. Place B Block into Seat’s cut out and insert Flat Head Bolts through the block into Left Side threaded holes and finger tighten.

2. **ATTACH BACK**

   Fit Back edge into Left Side cut out so that the cut outs in the Back face the threaded inserts in the Left Side. Place B Block into the Back’s cut out, insert Flat Head Bolts through the block into Left Sides threaded holes, and finger tighten.

3. **ATTACH FACE**

   Fit long edge of the Face into the Seats cut out and the short edge the Left Sides cut out. Place B Block into the Faces cut out, insert Flat Head Bolts through the block into the Left Side threaded holes, and finger tighten the bolts.

   *Repeat steps 1-3 to attach Right Side.*

4. **ATTACH ARMS**

   Fit Micro Double Blocks in Left and Right Sides hole cut outs so the block has a hole exposed on both sides. Fit the Left and Right Arms groove cut outs with the top edges of the Left and Right Sides and blocks. Insert Round Head Bolts through the blocks into the Arms threaded holes and finger tighten.

   *Using provided wrench securely tighten all bolts.*
