Loll Designs inspires people to appreciate the outdoors.

**ASSEMBLY INSTRUCTIONS & PRODUCT INFO:**

Loll Designs strives to build long-term relationships based on confidence and trust with our customers. We want you to love your Loll. If you are not completely satisfied with your purchase, Loll Designs hereby guarantees that the piece will be of good quality and workmanship, free from faults and defects. Loll warrants that all components will be CORRECT. If your piece of furniture requires "Blocks" for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one, recommend using an electric drill with a cord and without a clutch to install bolts in inserts as you can easily overtighten and damage the product. All bolts come standard with a thread coating to reduce bolts loosening after assembly while still allowing removal and reuse of the bolt. Start all bolts by hand, with the Allen key wrench, you can't muscle the bolt any tighter. It's virtually impossible to over tighten by hand. Watch the assembly videos at www.lolldesigns.com/videos for even more information and visual aids. If you have more questions please contact your Loll Sales Associate or Customer Service for support at 877.740.3387. A **Please Recycle the BOX and paper packaging. The green plastic stretch wrap we use is compostable.**

**BLOCK & BOLT INSTALLATION**

Insert bolts through countersunk hole side of blocks as shown below.

**ASSEMBLY TIPS**

*Please read before beginning assembly!

To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems parts aren’t fitting together you likely have something wrong and you should check that all parts have been assembled. If you have a G Block on your piece you will see a small section of the product that is white. It is not a mistake. This is where the protective film on the block will be after assembly and will stay on the block or it can be removed. Use the Allen key wrench to tighten the bolts. Over tightening can damage the product. Please check the instructions if you have any questions. If you are unsure if a component needs to be a certain count please call 877.740.3387. A **Please Recycle the BOX and paper packaging. The green plastic stretch wrap we use is compostable.**

**PRODUCT CARE**

Your new Loll furniture is a no maintenance product. You'll never need to paint or stain it and it can be left outside all year. We're pretty sure your Loll furniture will get a lot of use and will at some point need cleaning. We sit beside, on top, and beneath the quality of our fine furniture and will make things right if you aren't completely satisfied with your purchase. Loll Designs hereby guarantees that the piece will be of good quality and workmanship, free from faults and defects. Loll warrants that all components will be CORRECT. ASSEMBLY INSTRUCTIONS

1 ATTACH SIDES

*Please read Assembly Tips before beginning assembly. Lay Face flat on the ground with cutouts side up. Fit Side edge into the Face’s cutout. Place G Block’s into the Side’s cutouts, insert bolts through the blocks into the Face’s threaded holes, and finger tighten. Repeat for other side.

2 ASSEMBLE FLOOR & FLOOR BRACE

Slide Floor between Side panels by fitting it into the Side’s cutouts and sliding into the Face’s cutout. The Floor’s pocket cutouts should be on the same side as the threaded holes in the Side’s and Face. Fit Floor Brace end into the Face’s middle cutout.

3 ATTACH FLOOR

Place G Block’s into the Floor’s cutouts, insert bolts through the blocks into the Face and Side’s threaded holes, and finger tighten.

4 ATTACH RING BRACE

Link Ring Braces together by interlocking the ends together. Fit combined pieces into middle set of cutouts in the Side’s and slide down into the Face. The Ring Brace’s pocket cutouts should be on the same side as the threaded holes in the Side’s and Face.

5 ATTACH SECOND SIDE

Fit second Face cutouts with assembled container. Place G Blocks into all remaining cutouts, insert bolts through the blocks into the threaded holes, and finger tighten.

Using provided wrench securely tighten all bolts.

X ALTERNATE ASSEMBLY - FLOOR LOCATION

To assemble container with Floor in middle location switch assembly steps 2 &3 with step 4. The Floor with Floor Brace will be assembled in the middle set of cut outs and the Ring Brace assembled in the lower set of cut outs.
