**ASSEMBLY INSTRUCTIONS**

1. **ATTACH FACE PLATE**

   *Please read Assembly Tips before beginning assembly.

   Fit Face Plate short edge into the Left Side's pocket cut out. Place G Block into the Face Plate's pocket cut out, insert a bolt through the block into the Left Side's threaded hole, and finger tighten.

2. **ATTACH LOWER SHELF & BACK PLATE**

   Fit edge of Lower Shelf that has holes through it into the groove track cut out of the Back Plate, and fit both pieces into the groove track cut outs of the Left Side. Place G Blocks into the Lower Shelf and Back Plates pocket cut outs, insert bolts through the blocks into the Left Sides threaded holes, and finger tighten.

   Repeat steps 1 & 2 to attach Right Side.

3. **ATTACH SEAT SET**

   Layout the Seat Set so that the groove track cut outs line up. Place Seat Set individually over assembled chair sides (start with A then B and C) by fitting the groove track cut outs with the Sides and Front Plate. Place G Blocks into the Sides pocket cut outs, insert bolts through the blocks into the Seat Sets threaded holes, and finger tighten.

4. **ATTACH SEAT BRACE**

   Align Seat Brace holes with the holes of the Seat Set, then insert bolts through the Seat Brace into the Seat Set's threaded holes and finger tighten.

5. **ATTACH BACK SET**

   Layout the Back Set so that the groove track cut outs line up. Place Back Set individually over assembled chair sides (start with A then B, C, D) by fitting the groove track cut outs with the Sides and Front Plate. Place G Blocks into the Sides pocket cut outs, insert bolts through the blocks into the Back Sets threaded holes, and finger tighten.

   *Note: Use same color G Block as Racing Stripe color.

6. **ATTACH TOP SHELF**

   Fit Top Shelf pocket cut outs with top edges of Left & Right Sides (be sure handle is toward back). Place G Blocks into the Sides pocket cut outs, insert bolts through the blocks into the threaded holes of the Top Shelf, and finger tighten.

   *Using provided wrench securely tighten all bolts.

* It is very important that you finger tighten all bolts into inserts to ensure that you do not cross-thread bolts and inserts before tightening. It will also be easier if you wait to tighten bolts until you have all bolts installed and the piece completely assembled. This will allow for more movement of individual pieces and help in aligning holes with inserts. Use the Allen Tool provided to finish tighten bolt until snug.
INCLUDED PARTS

BACK SET
COUNT: 1

TOP SHELF
COUNT: 1

BACK PLATE
COUNT: 1

LOWER SHELF
COUNT: 1

FACE PLATE
COUNT: 1

Assembly Tips

Provide access to a screwdriver or screw puller as you assemble the product. Be sure to light if you are unable to access a screwdriver or screw puller. Contact us if you need assistance. We are happy to help.

Damaged Product

Sometimes accidents occur. Please inspect your Loll furniture when you receive it to make sure that it has not been damaged during shipping. If your furniture shows signs of damage, do not install it. Return it to the dealer within 14 days of receipt. If you have questions about the condition of your furniture, please contact Customer Service using our toll free number: 877.740.3387, ext. 1. The damage will be assessed and materials in case a return is necessary.

*Please read before beginning assembly!

To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems parts aren't fitting together you likely have something wrong and you should reread the instructions to ensure you are aligning the proper components. If your piece of furniture requires "Blocks" for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one and know how to use it. Set the clutch setting at medium torque. We do not recommend using an electric drill with a cord and without a clutch to install bolts still allowing removal and reuse of the bolt. Start all bolts by hand, with the Allen Key, or the Loll Tool and tighten firmly until parts are drawn tight together and you can't muscle the bolt any tighter. It's virtually impossible to over tighten by hand. Watch the assembly videos at www.lolldesigns.com/videos for even more instructions.

To order a Pro Tool Kit, please contact your Sales Associate or Customer Service for support at 877.740.3387. A * Please Recycle the BOX and paper packaging. The green plastic stretch wrap we use is compostable.
