ASSEMBLY INSTRUCTIONS

1. ATTACH LOWER SHELF & BACK PLATE

*Please read Assembly Tips before beginning assembly.

Fit edge of Lower Shelf that has holes through it into the groove track cut out of the Back Plate, and fit both pieces into the groove track cut outs of the Left Side. Place G Blocks into the Lower Shelf and Back Plates pocket cut outs, insert bolts through the blocks into the Left Sides threaded holes, and finger tighten.

2. ATTACH FACE PLATE

Fit Face Plate short edge into the Left Side's pocket cut out. Place G Block into the Face Plate's pocket cut out, insert a bolt through the block into the Left Side's threaded hole, and finger tighten. Repeat steps 1 & 2 to attach Right Side.

3. ATTACH TOP BRACE

Fit Top Brace edge into Left Side's pocket cut out. Place G Blocks into the Top Brace's pocket cut out, insert a bolt through the block into the Left Side's threaded holes, and finger tighten.

*Repeat steps 1-3 to attach Right Side.

4. ATTACH SEAT SET

Layout the Seat Set so that the groove track cut outs line up. Place Seat Set individually over assembled chair sides (start with A then B and C) by fitting the groove track cut outs with the Sides and Front Plate. Place G Blocks into the Sides pocket cut outs, insert bolts through the blocks into the Seat Sets threaded holes, and finger tighten.

5. ATTACH SEAT BRACE

Align Seat Brace holes with the holes of the Seat Set, then insert bolts through the Seat Brace into the Seat Set's threaded holes and finger tighten.

6. ATTACH BACK SET

Layout the Back Set so that the groove track cut outs line up. Place Back Set individually over assembled chair sides (start with A then B, C, D) by fitting the groove track cut outs with the Sides and Front Plate. Place G Blocks into the Sides pocket cut outs, insert bolts through the blocks into the Back Sets threaded holes, and finger tighten.

*Note: Use same color G Block as Racing Stripe color.

**Using provided wrench securely tighten all bolts.

*It is very important that you finger tighten all bolts into inserts to ensure that you do not cross-thread bolts and inserts before tightening. It will also be easier if you wait to tighten bolts until you have all bolts installed and the piece completely assembled. This will allow for more movement of individual pieces and help in aligning holes with inserts. Use the Allen Tool provided to finish tighten bolt until snug.

Assembly Tips:
- Ensure all holes are aligned before tightening.
- Finger tighten all bolts into inserts.
- Cross-threading bolts and inserts can be avoided by using the Allen Tool provided.
- Once all bolts are installed, use the Allen Tool to finish tighten each bolt until snug.

Refer to the Assembly Diagrams for visual aids in the assembly process.
Loll Designs inspire people to appreciate the outdoors.

**PRODUCT CARE**

We're pretty sure your Loll furniture will get a lot of use and will at some point need cleaning. We want you to love your Loll. Reach out if you need assistance. 5912 Waseca Street | Duluth, Minnesota 55807 877-740-3387 sales@lolldesigns.com

**5 YEAR WARRANTY**

Loll Designs hereby guarantees that the piece will be free of faults and defects, under normal use, for five years from the year mark on the piece or the date of purchase. *For proof of good quality and workmanship, free from faults and defects. Loll warrants that all components will not fail, under normal use, for five years from the year mark on the piece or the date of purchase.*

**NOTE:**

Loll offers low impact wood furniture, made in the USA from sustainably harvested woods. Loll does not recommend use of a garden hose and incorporating a soft bristle brush. Adding a tablespoon or two of your favorite eco-friendly soap to the wash will get everything squeaky clean. Mineral deposits left over from water hardening can be removed with a mild cleaning detergent and a soft cloth. If stubborn or unusual messes occur, please call Customer Service at 877.740.3387, ext. 1 for support.

**5% RECYCLED CONTENT**

Green plastic stretch wrap we use is compostable.

**ASSEMBLY TIPS**

To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems parts aren’t fitting together you likely have something wrong and you should reread the instructions to ensure you are aligning the proper components. If your piece of furniture requires “Blocks” for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one and know how to use it. Set the clutch setting at medium torque. We do not recommend using an electric drill with a cord and without a clutch to install bolts as you can easily overtighten and damage the product. All bolts come standard with a thread coating to reduce bolts loosening after assembly while still allowing removal and reuse of the bolt. Start all bolts by hand, with the Allen wrench and a small flathead screwdriver. Once bolts are tight hand them up, as far as you can’t muscle the bolt any tighter. It’s virtually impossible to over tighten by starting the bolts over. If you can’t get bolts started or it has not been damaged during shipping. If damage has occurred please take digital pictures of the damaged furniture and the box it was shipped in, and email them to sales@lolldesigns.com or call Customer Service using our toll free number: 877.740.3387, ext. 1. The damage will be assessed and you will be contacted with a solution to the problem. It may be helpful to save all of your packaging before beginning assembly.
